

Strengthening transport to the local community

Air transport, it's an innovative industry that drives economic and social development. It connects people, families, communities and cultures.

Recognising the fundamental requirement for transport to the Coen community, Hinterland Aviation has aspired to close the gap by announcing a newly improved flight schedule in an endeavour to continue its long term commitment to both the community, and its residents.

Hinterland Aviation's new flight schedule will provide regular flights every Monday, Wednesday and Friday between Cairns and Coen to service the community's residents.

Hinterland Aviation's Managing Director, Mark Dorward made the announcement of the newly improved flight schedule between Cairns and Coen commencing on 4 July, in addition to the 26 flights it also currently operates between Cairns and Cooktown.

"Our focus is to enhance on-time performance and further provide an efficient service. What this means to our passengers is an improved schedule with more reliable and regular flights between Cairns and Coen" Mark said.

Bookings can be made online at www.hinterlandaviation.com.au or by phoning the friendly operations team on: **(07) 4040 1333**.

"The staff at Hinterland Aviation are great, and so easy to deal with. Congratulations to Hinterland Aviation on providing a great environment for employees to work in. Environments like that come from the top." -
